

# Check Your Account

<http://catalog.wrlsweb.org>

1. Select your library and log in.
2. Click on the **My Account** tab.
3. Here you can see your current contact information, items you have checked out and reserved, lost items, your checkout history (if you have enabled that feature), your fees and your favorite web-sites.

## Checkout History

If you choose to enable **Checkout History**, the library will keep a record of everything you check out, until you tell us not to. If you do not enable this feature, the library will not record what you have checked out from the library as long as the item is returned on time and in good condition.
